

RENEWABLE ENERGY MADE EASY

Supporting renewable energy is a smart move for your business and for a healthier community. With Choose Renewable, it's easier than ever for businesses to meet renewable energy and sustainability goals.

Choose where your energy comes from

At Kaukauna Utilities, we strive to give you options. With Choose Renewable, you ensure that more of our energy is generated right here in the Midwest through a socially responsible energy mix of solar, wind and biogas resources.

Easy and accessible

Participating in the Choose Renewable takes just a few minutes. You can start (or stop) at any time. No equipment to buy or install, and no need to worry about payback periods or annual maintenance costs.

Direct benefits for your business

Through Choose Renewable, your business can claim the benefits of using renewable energy. And by helping to promote renewable energy in our community, your company will serve as a sustainability champion for our region's clean energy future.

How Choose Renewable Works:

- 1 Just \$2 per block per month on top of your normal monthly electric bill.
- 2 Produced from 100% renewable sources - solar, wind and biogas.
- 3 Each block equals 300 kilowatt hours (kWh) of energy.

$$\boxed{\$2.00 \text{ BLOCK}} = \boxed{300 \text{ kWh}}$$

Adding renewable energy is the smart and easy way to meet your business's renewable energy goals!

Signing up for Choose Renewable takes just a few minutes. Ask how your business can match up to 100% of its electric energy use with Choose Renewable.
